

Pushpendra Pandey

Senior Research Fellow, Birbal Sahni Institute of Palaeosciences (BSIP), Lucknow, India
✉ pushpendra.pandey@bsip.res.in | ☎ +91 7651853160 | [in LinkedIn](#) | [ORCID](#)

RESEARCH INTERESTS

Dendroclimatology; Atmospheric circulation; Climate variability and change; Mountain meteorology; Hydroclimate extremes; Climate model evaluation.

EDUCATION

Birbal Sahni Institute of Palaeosciences (BSIP)

Ph.D. in Climate Science

Apr 2022 – Present

Lucknow, India

- Thesis: *Tree Growth–Climate Relationships in the Western Himalaya (Dendroclimatology)*.

University of Lucknow

M.A. in Geography (First Class)

2018 – 2020

Lucknow, India

- Master's thesis on downscaled climate data and extreme event analysis (Himalayan region).

Pondicherry University

B.Tech. in Information Technology (First Class)

2008 – 2012

Puducherry, India

APPOINTMENTS

Birbal Sahni Institute of Palaeosciences (BSIP)

Senior Research Fellow

(Apr 2022 – Present)

Lucknow, India

- Dendroclimate reconstructions (FMAM); circulation diagnostics; moisture attribution workflows; model evaluation.

PUBLICATIONS

Journal articles

Age-Girth Stand Structure of Himalayan Fir and Growth–NDVI Relationship in the Treeline Transects of Western Himalaya: An Ecological Perspective. In *Ecology of Himalayan Treeline Ecotone* (pp. 455–481). Springer Nature Singapore. https://doi.org/10.1007/978-981-19-4476-5_19

Under review

- [1] Nag, D., Pandey, P., Verma, S., et al. Early Holocene latitudinal variations in Monsoon–Westerly dynamics from the Northwest Himalaya. *Under review*.

METHODS & TOOLS

- **Dendro** detrending; chronology building; EPS; nested PCA; climate-weighted PCs; site/species screening.
- **Atmos/Ocean** SWJ core latitude/strength; WD tracking & track density; EKE; 500–700 hPa GPH composites; ERA5; HadISST/OISST.
- **Lagrangian & recycling** FLEXPART; two-layer dynamic recycling; regime-conditioned source fractions.
- **Statistics** Bayesian linear models; GAM; block cross-validation; RE/CE; EVT (POT & block maxima); end-to-end uncertainty.
- **Computing** Python (xarray, dask, numpy/pandas, joblib, matplotlib/cartopy), R (dplR); HPC (OLCF Andes).

FIELDWORK

- **Lahaul–Spiti (2024)** High-elevation transects 2700–3900 m; 116 cores (*Cedrus deodara*, *Pinus wallichiana*); north/east/southeast aspects.
- **Kashmir & Tungnath** Tree-ring sampling and chronology development across treeline and sub-alpine bands; moisture-sensitivity screening.

WORKSHOPS & TRAINING

- **ICTS-TIFR (May 2024)** Data Assimilation for Weather & Climate Models, Bengaluru.
- **NCAR (Jan 2024)** WRF Tutorial.
- **IUAC, New Delhi** HPC School.
- **GSI Training Institute (2023)** Remote Sensing & GIS, Hyderabad (Jan–Feb 2023).
- **RSAC Lucknow (2019)** Remote Sensing & GIS training.
- **University of Lucknow (2019)** Geospatial technology in water resources.

HONORS

- **UGC-NET** All-India Rank 5 (99.99 percentile), June 2019.
- **UGC-NET** Qualified for Professorship, Dec 2018.

COMMUNITY ENGAGEMENT

- **AcSIR Science Club, BSIP** Vice President (2024–Present).
- **Young Earth System Scientists (YESS)** Member.

PROFESSIONAL MEMBERSHIPS

- **American Geophysical Union (AGU)** Student Membership.
- **American Meteorological Society (AMS)** Student Membership.
- **European Geosciences Union (EGU)** Student Membership.
