

Pushpendra Pandey

Senior Research Fellow, Birbal Sahni Institute of Palaeosciences (BSIP), Lucknow, India

Email: pushpendra.pandey@bsip.res.in | Tel: +91 7651853160 | [LinkedIn](#) | [ORCID](#) | [Google Scholar](#)

RESEARCH INTERESTS

Dendroclimatology; Atmospheric circulation; Climate variability and change; Mountain meteorology; Hydro-climate extremes; Climate model evaluation.

EDUCATION

Birbal Sahni Institute of Palaeosciences (BSIP)

Ph.D. in Climate Science

Apr 2022 – Present

Lucknow, India

- Thesis: *Climate Dynamics and Tree Growth Response Assessment in the Western Himalaya using Tree-rings.*

University of Lucknow

M.A. in Geography (First Class)

2018 – 2020

Lucknow, India

- Master's thesis on downscaled climate data and extreme event analysis (Himalayan region).

Pondicherry University

B.Tech. in Information Technology (First Class)

2008 – 2012

Puducherry, India

APPOINTMENTS

Birbal Sahni Institute of Palaeosciences (BSIP)

Senior Research Fellow

Apr 2022 – Present

Lucknow, India

- Dendroclimate reconstructions (FMAM); circulation diagnostics; moisture attribution workflows; model evaluation.

PUBLICATIONS

Journal articles

METHODS & TOOLS

- **Dendro** Detrending; chronology building; EPS; nested PCA; climate-weighted PCs; site/species screening.
- **Atmos/Ocean** WD tracking & track density; EKE; 500–700 hPa GPH composites; ERA5; HadISST/OISST; SWJ diagnostics.
- **Lagrangian** FLEXPART; two-layer dynamic recycling; regime-conditioned moisture source fractions.
- **Statistics** Bayesian linear models; GAM; block cross-validation; RE/CE; EVT; end-to-end uncertainty.
- **Computing** Python (xarray, dask, pandas, cartopy), R (dplR); HPC (OLCF Frontier, Andes).

FIELDWORK

- **Lahaul–Spiti (2024)** 2700–3900 m transects; 116 cores (*Cedrus deodara*, *Pinus wallichiana*); N/E/SE aspects.
- **Kashmir & Tugnath** Chronology development across treeline and sub-alpine bands; moisture-sensitivity screening.

WORKSHOPS & TRAINING

- **ICTS-TIFR (2024)** Data Assimilation for Weather & Climate Models, Bengaluru.
- **NCAR (2024)** WRF Tutorial.
- **IUAC, New Delhi** HPC School.
- **GSI Training (2023)** Remote Sensing & GIS, Hyderabad.

EDITORIAL & REVIEW SERVICE

- **Ad-hoc Reviewer** *Earth Systems and Environment* (Springer, 2026).

SELECTED COLLABORATIONS

- **Dr. Moetassim Ashfaq** — Oak Ridge National Laboratory (HPC climate modelling; ERA5 moisture transport; WD dynamics).
- **Dr. Manmeet Singh** — Western Kentucky University (diffusion-based precipitation super-resolution; S2S prediction).
- **Dr. Mukund Palat Rao** — Columbia University (tree-ring field reconstructions; hydroclimate variability).
- **Dr. Kieran Hunt** — University of Reading (Western Disturbance tracking; synoptic circulation diagnostics).
- **Prof. Zong-Liang Yang** — University of Texas at Austin (land–atmosphere interactions; climate model evaluation).

HONORS

- **UGC-NET** All-India Rank 5 (99.99 percentile), June 2019.
- **UGC-NET** Qualified for Professorship, Dec 2018.

SERVICE & MEMBERSHIPS

- **AcSIR Science Club** Vice President (2024–Present).
- **Societies** American Geophysical Union (AGU), American Meteorological Society (AMS), European Geophysical Union (EGU), Young Earth System Scientists (YESS), Association of Tree Rings (ATR), Association of Polar Early Career Scientists (APECS).
